5. What skills would you bring to this position and your key objectives for holding a position : Dan Boaz is not just another delivery Company President. Dan's experience in delivery services began in 1985 when he worked as a driver for UPS and proceeded to work his way up through management as an industrial engineer. On this journey, he learned how to do things right and then how to do them even better. He feels strongly that to provide a professional service that ensures the integrity of each delivery, he must provide a combination of the most up-to-date technology with experienced Expeditors that truly listen to customers' needs. A delivery world innovator and visionary, Dan spear-heads a host of subsidiaries that offer various delivery options both within the U.S. and worldwide, each with an emphasis on providing a seamless, stress-free experience for clients. He feels that providing a professional service requires a combination of the latest technology with experienced expeditors who truly listen to customer needs and accept the responsibility for following through on every single job. Dan is involved in The Expedite Association of North America and serves on its Board of Directors. This association creates and maintains a forum for networked expeditors that facilitates the exchange of information and services, allowing

member companies to safely and securely enhance, improve, and expand their services while maintaining the highest levels of quality. Thank You, Dan

Kim Johnson

Name: Kim Johnson

Company: Express Transport America

Title: Office Manager

Phone: 414-431-8143

Email: kim@e-t-a-inc.com

1. What position are you applying for?: TEANA Board of Directors

2. Indicate your involvement in TEANA: Membership and Vendor Services committee - 5 years

3. Are you now or have you been involved with any other Associations?: SmartWay, Women in Trucking Association

4. What do you feel are important issues for TEANA in your region?: As with most companies country wide, I think the most pressing issue is dealing with the "urbanization" of freight. There used to be 1,000 loads for 100 trucks. Now there's 1,000 loads for 10,000 trucks. As an industry, I believe it's important for us to work together to ensure stability for all of us, as well as holding all other companies to the standards we hold ourselves to. We can't allow the "vultures" to ruin our business model.

5. What skills would you bring to this position and your key objectives for holding a position: As someone who's more involved with the "administrative" side of their company, I think I bring a different viewpoint/set of skills than other BOD members. I'm efficient when it comes to reaching out to new members and making strong connections with other members. I'd like to work hard to bring our membership back up to the level of the past, as well as work on making sure that every member feels comfortable and gets the full benefit of being a member of TEANA.

Kim has been with Express Transport America since 2010 where she works as their office manager. She focuses on the administrative side of the company, her main duty being overseeing both AP and AR. She's been a member of the TEANA Membership Committee for 5 years, where she's had the opportunity to expand TEANA's membership as well make invaluable connections within the expediting community. She enjoys welcoming new members and building strong relationships within the organization. She's passionate about maintaining the integrity of our industry and believes everyone can benefit from everything TEANA has to offer.

Dave Large
