ANDREW GALLEGOS

Andrew Gallegos is currently the President of Great Lakes insurance and has been a leader in the Transportation Insurance space for over 21 years. After his service in the Marine Corps, Andrew and his father formed a Transportation specific agency in October of 2000 and has been serving Transportation and Logistics companies ever since. He has actively served as a member along with additional roles inside TEANA since it was established. We're talking back when TEANA's annual meetings were tied into GPS Net annual meetings! Many of his clients are active leaders within TEANA and is proud to have been a part of the growth and transitions TEANA has navigated throughout its life. The relationships forged through TEANA have turned into lifelong friendships and is a testament to the organization. What sets TEANA apart from other associations is the level of commitment its members bring to the table, their knowledge and expertise and willingness to work with other members. The fact that members work so closely together and truly partner with one another is a wonderful thing to witness and be a part of. Andrew's commitment to his clients and their success can't be matched. When not working he truly enjoys spending as much time as possible with his loving and supportive wife Banhi and daughter Natasha along with his 2 dogs Max and Bryn. When time permits, he also enjoys golf.

MIKE PETTREY

Mike Pettrey is a second generation legacy in the Expediting and Trucking Industry. Mike has grown up in the industry and has become a visionary leader. C&M Transport was one of TEANA's first members joining shortly after TEANA was founded on April 12, 2004. Mike has accepted many Company of The Year Awards on behalf of C&M and their outstanding service with other TEANA Members. C&M Transport which is located in Painesville Ohio, has been in business since 1991, and is owned by President, Melody Pettrey and Vice President, Mike Pettrey. Mike is constantly striving to not only make their business better, but guide the Expedite Industry to become better. He spends countless hours mentoring other trucking companies, including his direct competitors, on the "right way" to run a trucking company especially when it comes to safety, compliance and insurance. Mike also believes in working with the Best! That includes his participation in TEANA, the people he hires, the companies he works with and the technology tools he employs. Mike has helped build on the foundation of TEANA and its principles over the years and believes that the organization is the "Best of the Best!"

ADAM SCURALLI

Adam is Owner & President of Expeditus Transport, LLC. Started in 2012 out of his home office, Adam utilized his 18 years of industry experience and knowledge to grow the company into a full-service transportation and brokerage provider. Adam is committed to the success and satisfaction of his customers and employees. Originally from Canada (Go Maple Leafs!) Adam, a Lourdes University graduate, resides in Sylvania, Ohio with his wife, Jenna, and their two children, Sonny and Sal. If chosen to serve, Adam would consider it a privilege to contribute to an organization and its member who he considers an invaluable resource for industry knowledge.

ZOEY TOP

My passion for customer service can be traced back to my first job at Cinnabon when I was 15 years old. Even at that young age I discovered that I enjoyed my interaction with clients and the satisfaction of a job well done. Before discovering trucking, I worked in the furniture industry, went back to school to study public relations, then worked with a management consultancy in Ottawa, Canada. My curiosity and passion to learn fueled my drive to do things orderly, timely, and thoroughly. In four short years, I turned my entry-level admin assistant position – and my first experience in trucking, to my role as the President of Walter McDougall Logistics. My predecessor was instrumental in the creation of TEANA and went on to become the organization’s first President. A few years ago, I had the chance to represent Walter McDougall and (re)connect with members, join both the annual conferences and networking events, and participate in various committees. It took participating for me to buy in, and I hope to have the chance to pay forward the inclusion and kindness I experienced at every event, encourage participation in others, and contribute by using my experience and knowledge to benefit all members. Today, I am a decade into my marriage with our three awesome kids along for the journey, the smell of cinnamon from that first job is long worn off, but my desire to do great things continues. The best part is that I get to do what I love and do it together with our amazing team who took my passion and made it theirs.

ROB CHARBONNEAU

My name is Rob Charbonneau and I am the President of Bounce Logistics in South Bend IN. Bounce is a freight broker servicing the Freight Forwarding industry all across the United States in ground, air, intermodal, and drayage solutions. I have been in transportation my whole career, starting with an internship with Atlas Van Lines in Evansville IN, brokering spot trailers all across the United States. I became involved with TEANA in 2019 and attended my first event in Key West FL. I knew after that one event that TEANA was an association that looked out for their own, and had the best interest in mind not only for TEANA members, but for the transportation industry itself. It is because of this shared belief that I would like to join the board of TEANA and get involved with the long term success of the organization.

STUART SUTTON

Stuart Sutton has an Honors University degree in Computer Science (1981) and later completed his MBA (1991) where he was also named to the prestigious “Deans List” in his graduating year. He held senior roles in various industries until he got into transportation in 1995 to help build a TMS for TST Expedited Services in Windsor, Ontario. In 2001, he and Ed DeLeon left TST to start GPSNet Technologies (later rebranded to Sylectus). He sold Sylectus to Qualcomm in 2011 and continued to run Sylectus until he retired in 2014. In 2015 he was coaxed out of retirement by his ex-customers to build the next TMS and, starting from a blank sheet of paper, has designed and led Full Circle TMS to surpass his prior two TMS creations. He constantly listens to the needs of his software users (and the industry) to innovate Full Circle TMS with the ultimate objective of elevating the success of his subscribers. While at Sylectus, he was instrumental in helping to form TEANA and, for the formative years of the association, per the TEANA bylaws, was a permanent, non-voting board member (a role he relinquished prior to leaving Sylectus). He has constantly supported and promoted TEANA and its philosophies while at both Sylectus and Full Circle and has been the platinum sponsor for various TEANA events over the last 6 years.

STEVE ROY

Logistics is an industry I fell into after college and I fell in love with it for the rest of my career. For the past 24 years I have had the opportunity to explore many roles in the expedited world and while I have learned so much. I know there continues to be so much to learn and share about our unique industry. As a past President of TEANA, I have been a strong supporter of diplomatic relationships amongst expedite carriers that have similar open minded philosophies. Let's share information, trucks and freight to give our companies the ability to say YES to our clients more often and in turn grow our companies. I have watched so many small companies grow from just a few trucks because of their unique carrier to carrier relationships and membership to TEANA. For the past 10 years I have been focusing on developing our company Roy-Trans Global Logistics Inc (a Landstar Agency) and have recently opened a global air logistics company called Charter Force International Inc. Simply put, I continue to work hard to find ways to say yes to our clients a very high percentage of the time, treating clients, staff and carriers extremely well. This philosophy and having great staff that share the same drive and passion are reasons for our continued success and we will strive to continue our success for many years to come.

HOLLY AUSNEHMER

My name is Holly Ausnehmer, I have lived in Cleveland, OH my entire life. I am a proud parent to one daughter, who has brought so much joy to my life. I started my career in transportation in 2007, and have not left the industry since. I love everything about it, yet there is still so much more to learn. My knowledge and skills in transportation are in dispatching, sales, brokering, safety, recruiting, and billing. I enjoy talking to people, and no matter the situation, I am always willing to lend a hand. When I'm not working, I love to watch movies and play games. Being a part of the TEANA board would be a wonderful experience where I can learn from other community members and help bring my knowledge to the playing field.

MIKE MCCALLUM

Mike McCallum is President of Rydex Freight Systems, a third party Sprinter and Straight Truck firm providing expedite cross border services for the last 34 years. Mike has dedicated his life to working in logistics for the past 27 years starting within this firm in the early 90's. There have been several divisions and incarnations of the company, however, it has always been in Expedite. He has his designation in Logistics through the CITT, specializing in Transportation Law and revenue streams. Experienced and reliable, Mike looks forward to helping our community through TEANA and its members by serving on its council.
